## PROFILE SUMMARY

Full stack web developer with expertise in designing, developing, maintaining, and deploying web applications, with a proven ability to manage end-to-end project lifecycles effectively.

## WORK EXPERIENCE

### Full Stack Developer

Aug 23 – Present

#### TheSmallBigIdea

- Engineered and developed an efficiency tool used by over 4+ HR staff for task management, streamlined revenue tracking for the CEO & COO (increasing reporting efficiency by 100%), and implemented a real-time Kanban board for over 100+ client servicing representatives and designers/editors. Solely handled the entire lifecycle from ideation to deployment, supporting a user base of 250+ employees.
- Managed and updated the official sports website for Jaipur Pink Panthers, serving over 10,000+ monthly visitors, by implementing 10+ updates and features using ReactJS and Strapi, ensuring seamless user experience and timely content delivery.
- Built and deployed a responsive "Wheel of Fortune" game as the sole developer, used by over 1000 users, incorporating 3 authorization layers, an analytics dashboard tracking 5+ key metrics, customizable settings for 3+ game variations, and an admin ID creation system for managing access efficiently.
- Administered the company's VPS for deploying 5+ websites and managed hosting for over 5+ client websites using tools like Hostinger, GoDaddy, and Microsoft Azure, ensuring 99.9% uptime and optimal performance.
- Collaborated with the team to develop and maintain 5+ WooCommerce, Shopify, and WordPress websites for clients, including Sandu Pharmaceuticals, Ravenscroft Health, and the ThankYouFighter movie campaign (engaging 20,000+ visitors).

## PROJECTS

### Efficiency Management System

- Designed and deployed a task management platform for HR, client servicing, and revenue tracking using ReactJS, NodeJS, and Material UI. Enhanced productivity across teams.
  - Technologies Used:** ReactJS, NodeJS, ExpressJS, JWT, React Context, Material UI, MySQL, Sequelize ORM, Material React Tables, VPS, Ubuntu.

### Wheel Of Fortune Game & Dashboard

- Engineered a gamified responsive wheel of fortune game with a robust admin dashboard, multi-layer authentication, and analytics using NodeJS, Azure, and EJS Template Engine.
  - Technologies Used:** Microsoft Azure, NodeJS, ExpressJS, EJS Template Engine, Data Tables library, JWT, Bootstrap, Node Cron.

### WebRTC Chat Application

- Developed a real-time communication web app with video and audio chat functionality, utilizing the WebRTC protocol and WebSocket for seamless, low-latency communication.
  - Technologies Used:** WebRTC Protocol, WebSocket, NodeJS, ExpressJS, HTML, CSS, Bootstrap.

## TECHNICAL SKILLS

**Programming & Databases:** JavaScript, SQL, MySQL, Sequelize ORM.

**Frameworks & Libraries:** ReactJS, NodeJS, ExpressJS, SocketIO.

**Frontend & APIs:** HTML, CSS, Bootstrap, EJS, JWT, Material UI, Websocket APIs, REST APIs.

**Tools & Platforms:** Git, GitHub, Hostinger VPS, WordPress, Shopify, Strapi, Microsoft Azure.

## EDUCATION

### Bachelors of Engineering in Electronics

M.H Saboo Siddik College Of Engineering | Mumbai University

2019 - 2023

CGPI: 8.96
